## Celebrating Families

Join others to celebrate a special milestone for a family member by planting a native tree in a Dunedin City reserve.

Trees for Babies - Celebrating Families is a long term environmental/beautification project run by Keep Dunedin Beautiful in partnership with Rotary Dunedin. Originally begun as a way for parents to mark the birth of newborns the project has now widened to include any family milestone; be it anniversary, birthday or even a memorial.

Family members are welcomed to the reserve and shown how to plant their chosen tree. Certificates are presented to the person/family honoured through the planting.

Planting is usually done in May. Trees cost \$20 and must be pre ordered.
